## SUBARU OF AMERICA, INC. REPORTS OCTOBER SALES

Camden, N.J., Nov 2, 2021 - Subaru of America, Inc. today reported 36,817 vehicle sales for October 2021, a 40 percent decrease compared with record October 2020 (61,411) as Subaru continues to face supply chain shortages. The automaker also reported year-to-date sales of 499,619, a 0.3 percent gain compared with the same period in 2020.

“Subaru, like the rest of the auto industry, faces a severe shortage of semi-conductor chips and other key components, that directly impacts our vehicle production. We are working tirelessly, alongside our retailers, to get customers the vehicles they want and need as quickly as possible,” said Thomas J. Doll, President and CEO, Subaru of America, Inc. “In October, our Subaru retailer network exemplified what it means to be More Than a Retailer, through strong sales efficiency, as well as through outstanding customer experience for all those who choose our products.”

In October, Crosstrek was the top performer by volume with 10,591 vehicle sales. WRX/STI sales for October 2021 increased 35 percent over the same month in 2020. Year-to-date (YTD), Forester leads by volume with total sales of 137,074 vehicles. When compared with the same period in 2020, Outback posted a nearly seven (7) percent increase YTD, while Crosstrek and WRX/STI carlines posted YTD increases of 22 percent and 37 percent, respectively.

“Our retailers showcased record efficiency in October, proving the demand for the unmatched quality of Subaru vehicles. We’re looking forward to production improving over the next several months,” said Jeff Walters, Senior Vice President of Sales. “We’re proud of what our retailers have been able to accomplish as we continue to combat challenges from the global supply chain disruptions.”
